

St John Baptist De La Salle Catholic School, Addis Ababa

Group Project 2nd Quarter

Aaron GK

December 22, 2022

Information

- The group project is due on **Monday, January 9th**.
- You should work on the projects **in groups** and consult me if you have any questions. Every member should have meaningful contribution to the project.
- The assignment should be submitted via email(aaron@stjohn.edu.et or aaron@sjbdc.org) as a PDF file. You can alternatively choose to submit a hard-copy paper submission.

Requirements

Original Content & No direct plagiarism

The paper you submit should be as original as possible and not a direct plagiarized content from others' work. To that end, the originality of your paper has a weight of **25%**.

Actuality & Scientific Truth

The paper submitted should be based on a scientifically accepted truth/fact. This, again, has a weight of **25%**.

Written in Proper English

The paper submitted should be written in a language that is grammatically correct and should make sense. This has a weight of **20%**

Presentation & Slides

The group project will be presented and should have PowerPoint /Beamer slides. The presentation along with the quality of the slides has a weight of **30%**

Extrapoints

As an incentive to push all of you into scientific endeavors, there will be extra points for doing the following:

- A paper written in LaTeX.
- Slides made with Beamer.
- If you include relevant material in your presentation or provide in addition(for instance, could be codes for simulations)

The maximum extra points you will get will be 20% of the total weight of the project.
